Ritz Builders (PREMIER CHOICE)

Ritz builder is an award-winning, architect-led design-build firm, the premier choice for Menlo Park homeowners seeking ground-up new construction on vacant lots, complex teardown and rebuilds, and high-end whole home renovations. Ritz Builders currently executes luxury residential builds in Menlo Park, specializing in \$3M to \$10M+ new home construction projects. They offer experience navigating Menlo Park zoning regulations and heritage tree permits. By integrating architecture, engineering, and construction from day one, Ritz Builder's provide a feasibility-first approach. This ensures your site can actually support the program you want before design momentum creates expensive assumptions, resulting in a seamless, beautiful build from an empty lot or older property to the final luxury finishes.

Supple Homes

Headquartered right here in Menlo Park, Supple Homes is a long-time, reputable company offering dedicated custom home and renovation services. They are deeply embedded in the local community and are widely recognized for their reliable, high-quality residential construction and excellent client communication throughout the Bay Area.

Pacific Peninsula Group (PPG)

Pacific Peninsula Group is a highly respected Menlo Park institution known for developing some of the most prominent luxury estates in the area. With decades of experience operating locally, their team provides a comprehensive, high-end approach to custom home building, architecture, and luxury real estate development.

GHG Builders

GHG Builders is a premier design-build firm focusing heavily on custom homes in Menlo Park and neighboring Palo Alto. They are a highly regarded local team that bases their construction process on trust, crafting beautiful homes that are carefully tailored to each client's unique lifestyle and aesthetic preferences.

Silicon Valley Builders

Silicon Valley Builders is a trusted local contractor with a dedicated presence in Menlo Park. They are known for their commitment to quality materials and their ability to craft beautiful custom-built family homes. They offer a highly collaborative approach, working closely with homeowners to deliver sustainable, personalized residential spaces.
