

Austin Way - New Portfolio Project Page + Parent Grid Update

1) Parent Grid Card Update

Page: </explore-projects> Add a new active project card for Austin Avenue. Because the portfolio now has multiple real project pages, Austin should be added as another active project (2nd on this page)

- **Card Title:** Custom Farmhouse Single-Family Residence in Los Altos
- **ALSO ADD FOR RIVERSIDE HOME(NOT THIS ONE) ON CARD TO “in Cupertino”**
- **Card Subtitle:** A luxury Los Altos home that pairs timeless farmhouse architecture with a modern interior designed for bright, elevated everyday living.
- **Button Text:** Explore
- **Card Link:** </explore-projects/austin-avenue-los-altos>

Parent Grid Notes

- Keep existing live project cards active.
- Placeholder cards can remain for social proof.
- Austin should visually present Ritz Builders as capable in both custom farmhouse exterior design and modern interior execution.
- Ritz Builders is the only credited entity.

2) Final URL / SEO Setup

- **Final URL:**
<https://ritzbuilders.com/explore-projects/austin-avenue-los-altos>
- **Slug:** </explore-projects/austin-avenue-los-altos>
- **Canonical:** self-referencing canonical to final URL
- **Robots:** index, follow
- **Sitemap:** include in sitemap.xml

Indexing Notes

- No noindex
- No canonical pointing elsewhere
- Must be fully crawlable
- Must be linked from the Los Altos city page and other authority pages

3) Metadata

- **Title Tag:** Luxury Custom Farmhouse Home in Los Altos | Ritz Builders
- **Meta Description:** Explore the Austin Avenue Residence, a luxury custom farmhouse in Los Altos by Ritz Builders. View the timeless exterior and modern interior transformation.
- **H1:** Austin Avenue Residence | Custom Farmhouse Home in Los Altos

OG / Social

- **og:title** = Luxury Custom Farmhouse Home in Los Altos | Ritz Builders
- **og:description** = same as meta description
- **og:url** = canonical
- **og:image** = [los-altos-custom-farmhouse-front-elevation.jpg](#)

4) Final Page Order

Use the Riverside page order exactly:

1. Hero
2. Proof Strip
3. Description Block
4. Gallery
5. FAQ
6. Final CTA + Global Form

Note: No video section on this page.

5) Hero Section

- **Hero Image:** [los-altos-custom-farmhouse-front-elevation.jpg](#)
- **H1:** Austin Avenue Residence | Custom Farmhouse Home in Los Altos
- **Subheadline:** A ground-up luxury custom home in Los Altos designed and built by Ritz Builders, combining timeless farmhouse curb appeal with a refined modern interior built for elevated everyday living.
- **Primary CTA:** Request Private Consultation
- **Primary CTA Link:** jump to final global form
- **Secondary CTA:** View Home Gallery
- **Secondary CTA Link:** jump to gallery

Hero Notes

- Do not show the full street number publicly.
- Project should be named Austin Avenue Residence.
- No mention of Zestimate, Redfin, sale history, schools, or year on-page.

6) Proof Strip

This should match the Riverside format:

Top Row Import the same award / credibility strip used on the homepage and Riverside page.

Specs Underneath

- **Type:** Ground-Up Custom Home
- **Build Approach:** Teardown and Rebuild
- **Style:** Custom Farmhouse Exterior + Modern Interior
- **Square Feet:** 3,525 SF
- **Lot Size:** 0.29 Acres
- **Bedrooms:** 4
- **Bathrooms:** 4.5
- **Garage:** Attached Garage
- **Location:** Los Altos, California
- **Designed + Built By:** Ritz Builders

7) Description Block

Recommended Copy Austin Avenue Residence is a ground-up custom home in Los Altos designed and built by Ritz Builders through a fully integrated design-build process. The home was rebuilt to deliver a timeless farmhouse exterior presence while opening into a distinctly modern interior defined by vaulted volume, expansive glazing, refined millwork, and a restrained luxury palette. From the front elevation to the great room and kitchen, every space was composed to feel cohesive, light-filled, and highly livable. The result is a custom Los Altos residence that demonstrates Ritz Builders' ability to execute both classic architectural character and contemporary interior sophistication at a high level.

8) Gallery

Use this exact order and alt text map:

- [los-altos-custom-farmhouse-front-elevation.png](#) **Alt:** Front elevation of a custom farmhouse home in Los Altos designed and built by Ritz Builders
- [los-altos-custom-farmhouse-rear-twilight.png](#) **Alt:** Rear twilight view of the custom farmhouse home with lawn and pool edge
- [los-altos-custom-farmhouse-backyard-exterior.jpg](#) **Alt:** Backyard exterior of a Los Altos custom home with curved hardscape and outdoor living space
- [los-altos-custom-home-great-room-entry.jpg](#) **Alt:** Great room entry with vaulted ceiling and expansive glass walls
- [los-altos-custom-home-open-living-room.jpg](#) **Alt:** Open living space with seamless indoor-outdoor connection
- [los-altos-modern-kitchen-wide-view.jpg](#) **Alt:** Modern kitchen in a Los Altos custom home with full-height millwork and stone island

- [los-altos-modern-kitchen-marble-island-detail.jpg](#) **Alt:** Marble island and custom cabinetry detail in the luxury kitchen
- [los-altos-modern-kitchen-elevation-view.jpg](#) **Alt:** Wide kitchen elevation view showing modern finishes
- [los-altos-modern-kitchen-island-angle.jpg](#) **Alt:** Angled view of the Los Altos kitchen island and modern lighting
- [los-altos-modern-kitchen-backsplash-detail.jpg](#) **Alt:** Full-height backsplash and integrated luxury kitchen detailing
- [los-altos-kitchen-brass-faucet-stone-detail.jpg](#) **Alt:** Brass faucet and stone countertop detail
- [los-altos-custom-home-upper-landing.jpg](#) **Alt:** Upper landing and modern stair detail
- [los-altos-stone-powder-room-vanity.jpg](#) **Alt:** Sculptural stone powder room vanity in a Los Altos luxury home

Gallery Notes

- Alt text stays natural and not spammy.
- This sequence is clean for users and still strong enough for entity association, which our guide treats as useful but secondary behind citations and FAQ.

9) FAQ Section

Section Heading: Los Altos Custom Home Frequently Asked Questions

FAQ 1: What type of construction is the Austin Avenue Residence? This Los Altos project is a complete teardown and rebuild. We removed the original, outdated structure and executed a ground-up custom build. As an award-winning design-build firm, we managed every phase of this property's transformation, from site feasibility and architectural design to the final premium interior finishes.

FAQ 2: How does this home blend farmhouse architecture with modern interiors? The goal was to create timeless curb appeal without sacrificing contemporary luxury. The Austin Avenue Residence features a classic custom farmhouse exterior that fits naturally into the Los Altos neighborhood, while the interior opens up into vaulted ceilings, expansive glass, and a sleek, modern finish palette designed for elevated everyday living.

FAQ 3: What is the advantage of using a design-build firm for a teardown and rebuild? Tearing down an existing house and building a new custom home requires intense coordination. Because Ritz Builders is an architect-led, award-winning firm, our design and construction teams operate as one unified unit. This eliminates the usual friction between independent architects and standard contractors, ensuring strict quality control and a much smoother process from the first city permit to move-in day.

FAQ 4: Can Ritz Builders build a custom home on a property I already own? Yes. Many of our clients already own a property, either an empty lot or an aging house that needs to be replaced. Whether your site is in Los Altos or elsewhere in the Bay Area, our process starts with a deep feasibility analysis to determine the best approach for a ground-up build or major structural transformation.

FAQ 5: What separates a Ritz Builders custom home from a standard new build? The difference lies in architectural intent and material execution. We do not build basic spec homes. Every custom project we take on is characterized by highly resolved floor plans, premium custom millwork, structural integrity, and flawless transitions. Our focus is on delivering a high-end spatial experience tailored entirely to the way you want to live.

FAQ 6: How do we start planning a custom teardown and rebuild project in Los Altos or Los Altos Hills? The smartest first step is a private consultation. Before committing to expensive architectural plans, our team works with you to understand your property's constraints, your design ambitions, and the required investment. This early alignment is why our custom homes consistently hit the mark.

FAQ Implementation Notes

- FAQ must be visible in HTML.
- Accordion is fine if the content is still crawlable.
- Keep wording unique to this page.
- Do not copy the Los Altos city page FAQ word-for-word.
- If FAQ schema is used, it must exactly match the visible page text and should remain unique to this project page.

10) Final CTA + Global Form

Section Heading: Start Your Los Altos Custom Home Project with Ritz Builders

Body Copy: If you are planning a custom home, teardown-rebuild, or high-end residential project in Los Altos, connect with Ritz Builders for a private consultation.

- **Form:** Use the existing global form
- **Phone:** (669) 800-9012

CTA Notes

- Same form.
- Same phone.
- Preserve current HubSpot mapping and attribution structure.

12) Structured Data Recommendations

Use markup that matches the visible page exactly.

Recommended:

- [BreadcrumbList](#)
- [ImageGallery](#)
- [WebPage](#) or [ItemPage](#)
- Optional: [FAQPage](#) (only if it matches the visible FAQ exactly)

Dev Note regarding SingleFamilyResidence: If applying [SingleFamilyResidence](#) schema, be aware that omitting the full street address (which we require for privacy) will likely throw a "Missing field" warning in Google Search Console. Stick to [WebPage](#) and [Organization](#) if you want a clean validation.

Do Not Add:

- Fake "AI" schema
- Hidden FAQ text
- Schema that describes content not present on the page

13) Final QA Checklist

- Final slug is [/explore-projects/austin-avenue-los-altos](#)
- Page is indexable and included in sitemap
- Canonical is self-referencing
- No accidental noindex or redirect issues
- Hero image is [los-altos-custom-farmhouse-front-elevation.jpg](#)
- Public page uses Austin Avenue Residence, not the full numbered address
- No year, cost, Zestimate, Redfin, school, or property-history filler appears on the page
- Ritz Builders is the only credited design/build entity
- Proof strip includes awards + specs in the Riverside format
- Gallery order matches the approved order exactly
- Compressed/converted web image files are used exactly as listed
- Alt text stays natural and not spammy
- FAQ content is visible in HTML
- FAQ wording is unique to this page
- Primary CTA jumps to global form
- Secondary CTA jumps to gallery
- Mobile spacing, gallery rendering, and proof strip layout are clean
- Tone stays premium, design-forward, and lower-funnel throughout

14) Final Strategic Note

This page should not feel like a listing page. It should feel like a Ritz Builders proof page. The page's job is to communicate:

- Ritz can build a custom farmhouse home in Los Altos
- Ritz can deliver a modern luxury interior
- Ritz can execute a ground-up custom home through design-build
- Ritz is a serious option for high-end Los Altos residential work
