

Final Homepage Handoff for Dev

ritzbuilders.com/

Please treat this as the **final homepage handoff for tonight**. Prioritize **exact copy, section order, deletions, and link destinations exactly as written**. If any spacing or line-break constraints conflict with the new copy, **preserve the new copy first**, then adjust layout to maintain the existing luxury visual style.

Global

1. Change title tag to:
 - **Luxury Custom Home Builder Bay Area | Ritz Builders**
 - Ensure this is consistent in the page source HTML and anywhere else the title is set.
 2. Keep the meta description exactly as-is. Do not change it.
-

Section 1 — Hero

3. Keep the H1 format visually the same as now, with **Ritz Builders** still in the H1. Replace the current second line text:
 - From: **Elevating the Art of Custom Homebuilding**
 - To: **Architect-Led Custom Home Builder in the Bay Area**
 - **Note: only one h1, but just make it two lines(exactly how it is now)**
4. Add a centered subheadline directly below the H1 with clear spacing above and below so it feels visually separated.
 - Must be smaller than the H1
 - Must be lighter font weight than the H1
 - Keep it to **2 lines visually**, not 3
 - Use this exact copy:
 - **Award-winning design-build firm specializing in custom homes, teardown-rebuilds, whole-home remodels, and luxury renovations across the Bay Area.**
5. Change the primary CTA button text:
 - From: **Request a Private Consultation**
 - To: **Schedule a Consultation**
6. Change the secondary CTA button text:
 - From: **See our Work**
 - To: **Explore Our Projects**

7. Add a micro trust line centered below the CTA buttons:

2025–2026 Americas Property Awards Winner • 350,000+ SF Built

8. To ensure these edits
- Adjust the hero layout by moving the entire text block (H1, subheadline, and CTAs) higher up and adjusting vertical spacing so everything fits cleanly and feels balanced, without overcrowding or pushing content too low. - ensure this doesn't look cramped on desktop or mobile, should still be visually appealing
9. Delete the current stats bar under this section entirely:
- 350,000+ sqft
 - Integrity
 - Innovation
 - Award-Winning

NEW Section 2 — Services Routing

9. Create a new Section 2 directly below the hero.

Use the **same card template, images, and overall block style from the “What type of bay area home project are you starting” block on /services page**. - for all edits below don't touch the block on /services, these are specific edits to this new block on homepage, it's just simpler to use the template we already have

Replace: “What type of bay area home project are you starting” to:
